1. INTRODUCTION

The 20th century has been characterized as the century of immigration because of the major population shifts and movements regarding the population composition which were implemented either by forced or not as we have been witnessing. Immigration has been observed right from the beginning of the “Homo Sapiens era”, and so this common social phenomenon isn’t considered something new or anything special. Millions of refugees among them thousands of children were and still are forced to leave their origin of birth in general their countries, thus to free themselves from factors which oppress their personalities and life style, that were caused either from war, misery, violence, climate changes, religious belief and as well as a variety natural disasters. Migration as a phenomenon of human evolution directly or indirectly deeply affects the fundamental modern aspects of social, economic and political ways of life, and this requires a variety of social interventions. Migrant movement within host countries has caused many people a form of uncertainty and indignation. In this case however, the phenomenon has increased significantly and has grown to larger dimensions. The large flow of refugees has recently reached elevated levels in comparison to the last ten years. The total immigrant population is roughly estimated at 3% of the world’s population and that number may surely

increase further in the future. Many of the neighboring war zones from which most refugees have come from, a large amount of refugees have been absorbed in countries where the population is more than they can handle. These countries have welcomed this wave of migration; deserve special attention and recognition for the management and embracement of the immigration issue. In the host countries we find varied total immigrants with different cultural identities, resulting in confusion because of the lack of information disseminated to the local authorities.

Initially, in Europe the unexpected increase of the migration rate has been high and therefore has not worked well, although significant progress has been made at all levels.

This challenge has surprised Europe and the Member States not being able to manage this situation in the first place. In recent years, misunderstandings and misconceptions have been made clear, a difficult move to make the most of legitimate immigration and, in particular, to strengthen vulnerable groups such as children and women. The European Union, within the implementation of European rules and institutions, strengthens the integration of the immigrant community into areas such as asylum and security and thus incorporates the right of residence of recent arrivals and not only. Greece is one of the countries that have received the largest volume of immigrants, something un-

precedented as it was generally the country of immigration. So, as a host country, it is called upon to address the problems and needs of refugees from other nationalities. As a result the founders of the Refuge Coin which are also residence of Greece have experienced deeply the massive migration flow and all that this entails. In view of the ongoing effort of the daily survival of migrants, we have made it a priority to strengthen refugees in better access, such as shelters, health services and education.

2. SUMMARY

Essentially the creation of the Refuge Coin (RFG) cryptocurrency is a source of money gathering where distribution and management are properly implemented through legitimate processes. This money has several carriers with which migrants have secure access to goods and services by businesses and government agencies. In 2014 remittances to developing countries reached \$436 billion, more than half of foreign direct investment and three times more than official development support. Finally, with the creation of the refuge coin (RFG) we help reduce remittance costs to make more profits. Various investigations and appropriate calculations show that if there was a 1% reduction in remittance costs, 30 billion dollars could be released every year. We must

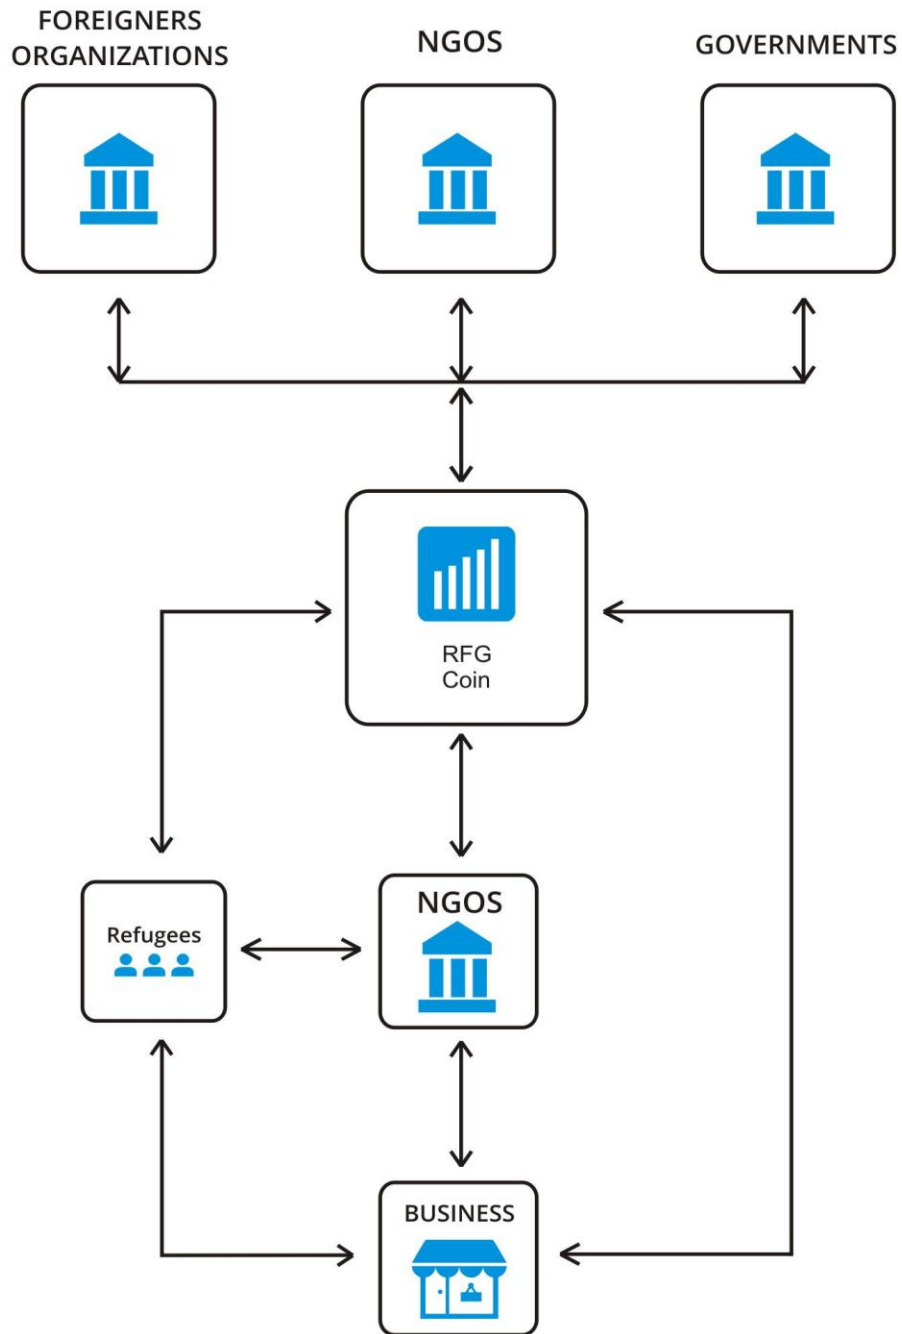

strongly support the G20 agreement to reduce take-up costs. Without any doubt, initially there will be difficulties, accounting, financial policies, but these will have to be adjusted according to the benefits that will come in the future. In fact, one thing is clear that no country can handle the refugee issue on its own. The international community will have to play its part and global cooperation is needed. On a local level it requires more money to boost more state services on the refugee issue. In addition, over the next few months, our analysis of the issue will help countries such as Africa, Europe, and the Middle East to face mass population movements. The migration has emerged as a global problem and we all need to work together to encounter it. It is only through cooperation that we can turn this challenge into real opportunity for the benefit of all. If we want to turn the migration into a successful move; We need to look closely at the issue since it is a multifaceted case.

2.1 SOLUTIONS

To help improve immigrants' well-being, we have created the Refuge Coin (RFG) cryptocurrency, which aims to improve living standards and to make use the facilitation of all kinds of sustainability transactions. Below we analyze the use and control of our cryptocurrency, which are as follows:

1. The creation an electronic wallet for transaction processes of all businesses with the migrants, organizations, etc. a gateway for easier acquisition of basic material goods, health services and education.
2. The creation of Refuge Coin blockchain for the registration of immigrants at reception points with the possibility to completely update individual data, such as:(name, surname, sex, country of origin, education etc.) in which the history and movements can be stored in order to manage the fund capital that is intended for the immigrants.
3. Communication with EU institutions, international amnesty, humanitarian organizations etc. with the aim of presenting and informing institutions about the ecosystem that we are developing and in particular the range of benefits and its action.
4. Communication and update with NGOs to the intention of presentation and the implement our ecosystems study.
5. The insertion to cryptocurrency exchange markets.
6. Communication with migrants' countries of origin to present the creation of a program and also unique software for the registration of individual migrant database with the significant advantage of an accurate interaction through the confirmation of personal data.

PRESENTATION OF THE ECOSYSTEM

ROAD MAP

2018

Q1

- PRE ICO -50% 01/03/2018 - 31/03/2018
 - ICO PHASE-1 -20% 01/04/2018 - 31/05/2018
 - ICO PHASE-2 -10% 01/06/2018 - 31/08/2018
-

Q2

- Create RefugeCoin Wallet
-

Q3

- Import to exchange currency
 - Create Blockchain of RefugeCoin
-

Q4

- Communication with European institutions

2019

Q1

- Contact with NGOs
-

Q2

- Communicating with countries of origin migrants

5. REFUGE TOKEN DETAILS

Name Token	RefugeCoin
Symbol Token	RFG
Technological platform	Ethereum
Token Price	1ETH = 1000RFG
Minimum order Token	1RFG
Start Ico	01/03/2018
End Ico	31/08/2018

6. INVESTMENT OPPORTUNITY & REWARD

6.1 INVESTMENT PART 1/3

Those who wish to buy Refuge tokens must be aware that the market involves risk and therefore this issue should be clearly understood:

1. It is essential to have at least minimal experience or knowledge of what blockchain or Ethereum, and also cryptocurrency is in general, because this way you can only understand the risks involved if any but also the high benefits of investing by purchasing RFG tokens.
2. The buyer should understand that the success and development of Refuge token is not only guaranteed by investing in the ICO market, but it will gain optimum value over time and the program implementation.
3. The buyer should also understand that he or she holds full responsibility for any investment he or she fulfills in buying Refuge tokens.

4. On our behalf, we are not only aiming to provide you the best analysis for your investing practices in Refuge tokens, but we want to also encourage you to read and understand fully the white paper's terms and purpose of development.

5. The Refuge Token is based on the ERC20 Ethereum platform. This means that when making any kind of transformations (buying or selling) and also for the storage to and from the wallet is made through the Ethereum platform. Any technical defects or even attacks that may possibly occur on the Ethereum platform may have a negative effect on the value of the RFG token, we do not have any control for such an issue.

6.2 INVESTMENT PART 2/3

Refuge Token Foundation insists the best Safe Storage Plan is that we do not store any kind of private keys or password information what so ever. Private keys and passwords will be stored only on the user's individual's computer, meaning that the user only has total control of the security for the storage of RFG tokens making it 100% privately protected, meaning that the security for RFG Token is independent from all factors. Every user must take strict precautions to avoid any potential losses or even leaks of private keys or passwords that could possibly lead to the loss of any or all funds. Do not compromise your token security.

ATTENTION AGAINST CURRENCY

We take the custody of the funds we receive very seriously during ICO session. We will try to keep the private keys safe. Despite the measures we have taken we cannot guarantee security from possible hacking by hackers or attacks on the vulnerable websites of an intelligent symbol or the Ethereum platform. The theft of funds could negatively affect the value of the (RFG) Token. We will implement various security measures and protection as the (RFG) Token platform will be developed as well as a secure data storage protocols.

We are taking serious measures for the protection of the capital funds that we receive during the ICO session. The private keys will try to keep them safe. Notwithstanding the measures we have taken, we cannot guarantee security from possible hacking by hackers or attacks from a vulnerable website of a smart contract or the Ethereum platform. Theft of funds could negatively affect the value of RFG Token. We will implement various security and protection measures as the RFG Coin platform will develop, such as an authentication system and secure data storage protocols.

THE VALUE OF THE TOKEN

The RFG token is intended for internal use in the ecosystem and its implementation will serve to achieve the goal of ecosystem integration. We cannot the process of developing guarantee the future value of the RFG TOKEN.

6.3 INVESTMENT PART 3/3

The fast growing market for the blockchain technology, various regulatory factors and the influence of the global marketplace prevent us to determine the exact value of RFG TOKEN.

7. Legal Considerations, Disclaimer & Involved Risks

When acquiring any amount of RFG tokens you should be aware that there is always the risk of all or partially money loss involved when purchasing tokens and it cannot in any way be refunded or exchanged. There is no guarantee that the utility of RFG tokens or the project described in this white paper will be delivered as stated. Any sudden changes that may or could occur may possibly change or alter the value of the RFG token negatively.

You are solely waiving your rights by agreeing to these terms and conditions by purchasing Refuge tokens, by participating you agree to have absolutely no recourse, claim, action, judgement or remedy against the Refuge Token Foundation or if the project described in this white paper is not delivered or realized. If you are uncertain or unaware as to anything described in this white paper or even do not feel prepared to take any risk with your responsibility to how you spend your money, then we strongly urge you not to purchase RFG tokens.

We recommend you should first consult legal, financial, tax and other professional advisors or even cryptocurrency experts for further guidance before proceeding to purchase Refuge tokens. Refuge tokens are not in any way of form and also do not entitle you with; shares, bonds, titles etc. it is not in any such way linked to the ownership of the Refuge Token Foundation. They are merely a means by which you may be able

to use services and products on a platform that is yet to be developed. There is no guarantee the platform will actually be developed.

Important: Please read the entirety of the “Legal Considerations, Disclaimer & Involved Risks section” carefully.

LEGAL CONSIDERATIONS, DISCLAIMER & INVOLVED RISKS

THERE IS THE RISK THAT YOU MAY LOSE ALL OR PARTIALLY THE MONEY YOU SPEND PURCHASING RFG TOKENS. IN THE EVENT THAT YOU PURCHASE TOKENS, YOUR PURCHASE CANNOT BE REFUNDED OR EXCHANGED. THERE IS NO GUARANTEE THAT THE UTILITY OF THE RFG TOKENS OR THE PROJECT DESCRIBED IN THIS WHITE PAPER WILL BE DELIVERED. YOU ARE WAIVING YOUR RIGHTS BY AGREEING TO THESE TERMS AND CONDITIONS AND PARTICIPATING IN THE REFUGE TOKEN FOUNDATION LIMITED TOKEN SALE.

BY PARTICIPATING IN THE REFUGE TOKEN FOUNDATION LIMITED TOKEN SALE YOU AGREE TO HAVE NO RECOURSE, CLAIM, ACTION, JUDGEMENT OR REMEDY AGAINST REFUGE COIN TECHNOLOGIES DLT LIMITED IF THE UTILITY OF THE RFG TOKENS OR IF THE PROJECT DESCRIBED IN THIS WHITE PAPER IS NOT DELIVERED OR REALISED. IF YOU ARE UNCERTAIN AS TO ANYTHING IN THIS WHITE PAPER OR YOU ARE NOT PREPARED TO LOSE ALL MONEY THAT YOU SPEND PURCHASING RFG TOKENS, WE STRONGLY URGE YOU NOT TO PURCHASE ANY RFG TOKENS. WE RECOMMEND YOU CONSULT LEGAL, FINANCIAL, TAX AND OTHER PROFESSIONAL ADVISORS OR EXPERTS FOR FURTHER GUIDANCE BEFORE PARTICIPATING IN THE REFUGE TOKEN FOUNDATION LIMITED TOKEN SALE OUTLINED IN THIS WHITE PAPER. YOU ARE STRONGLY ADVISED TO TAKE INDEPENDENT LEGAL ADVICE IN RESPECT OF THE LEGALITY IN YOUR JURISDICTION OF YOUR PARTICIPATION IN THE TOKEN SALE. RFG TOKENS ARE NOT SHARES OR SECURITIES OF ANY TYPE. THEY DO NOT ENTITLE YOU TO ANY OWNERSHIP OR OTHER INTEREST IN REFUGE TOKEN FOUNDATION. THEY ARE MERELY A MEANS BY WHICH YOU MAY BE ABLE TO USE SERVICES AND PRODUCTS ON A PLATFORM THAT IS YET TO BE DEVELOPED. THERE IS NO GUARANTEE THAT THE PLATFORM WILL ACTUALLY BE DEVELOPED.

PLEASE READ THE ENTIRETY OF THIS “Legal Considerations, Disclaimer & Involved Risks” SECTION CAREFULLY.

You must read the following “Legal Considerations, Risks and Disclaimer” section in full before: (i) making use of this White Paper and any and all information available on the website(s) of Refuge Token Foundation (the “Foundation”) located at www.refugecoin.com (the “Website”); and (ii) participating in the Foundation’s token sale (the “Token Sale”) outlined in the White Paper (the “White Paper”) located at www.refugecoin.com and download whitepaper pdf . This “Legal Considerations, Risks and Disclaimer” section applies to the White Paper and any and all information available on the Website. The contents of this “Legal Considerations, Disclaimer & Involved Risks” section outlines the terms and conditions applicable to you in connection with (i) your use of the White Paper and of any and all information available on the Website; and (ii) your participation in the Token Sale, in each case in addition to any other terms and conditions that we may publish from time to time relating to the White Paper, the Website and the Token Sale (such terms hereinafter referred to as the “Terms”).

This “Legal Considerations, Disclaimer & Involved Risks” section may be updated from time to time and will be published as part of the latest version of the White Paper which shall be available on the Website. You shall be obliged to read in full the latest available version of the White Paper available on the website prior to participating in the Token Sale.

The information set forth in this “Legal Considerations, Disclaimer & Involved Risks” section may not be exhaustive and does not imply any elements of a contractual relationship. While we take reasonable care to ensure that all information: (i) in the White Paper; and (ii) available on the Website (all the in-

formation in the White Paper and all information available on the Website hereinafter referred to as the “ Available Information ”) is accurate and up to date, such material in no way constitutes professional advice. Individuals intending to participate in the Token Sale should seek independent professional advice prior to acting on any of the Available Information.

LEGAL CONSIDERATIONS

The Foundation has used reasonable endeavors to approach the Token Sale in a responsible and sensible manner. Given the legal uncertainty concerning distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities in a number of jurisdictions, the Foundation has spent time and resources to consider its business approach and where it proposes to operate now and in the future. As such, it is possible that the Foundation’s RFG tokens described in the White Paper and which are the subjects of the Token Sale (the “Tokens”) may comprise a security in your jurisdiction or the offer for sale by the Foundation of the Tokens in your jurisdiction may be a regulated or prohibited activity. The Foundation accepts no responsibility or liability to you in these or any other circumstances. You are strongly advised to take independent legal advice in respect of the legality in your jurisdiction of your participation in the Token Sale and purchase of Tokens.

Due to the current uncertain state of regulations relating to distributed ledger technology and token sales across the world, the Foundation cannot guarantee the legality of the Token Sale or the future business platform to be developed as envisaged by the Available Information or the Foundation’s ability to develop, structure and license any future Token functionality in every jurisdiction but the Foundation will use reasonable commercial endeavors to be responsive and compliant in the face of any regulatory inquiry. The Tokens are functional utility tokens designed for use only on the Foundation’s business platform that is yet to be fully developed. The Tokens are not securities. The Foundation is not actively taking any steps during the Token Sale to make the Tokens tradable on any regulated or unregulated or primary or secondary market. In the event that you purchase Tokens, your purchase cannot be refunded or exchanged. The Foundation does not recommend purchasing Tokens for speculative investment purposes. Tokens do not entitle you to any equity, governance, voting or similar right or entitlement in the Foundation or in any of its affiliated companies. Tokens are sold as digital products, similar to downloadable software, digital music and the like. The Foundation does not recommend that you purchase Tokens unless you have prior experience with cryptographic tokens, blockchain-based software and distributed ledger technology and unless you have taken independent professional advice. The Foundation may choose to make the Available Information accessible in a number of different languages. In the event of any conflict between the English version of the Available Information and any foreign language version, the English language version will prevail.

REGIONAL RESTRICTIONS

Citizens, nationals, residents (tax or otherwise), green card holders and/or Restricted Persons of any Restricted Jurisdiction are not permitted to participate and are expressly prohibited from participating in the Token Sale. The term “Restricted Jurisdiction” means and includes: (i) the United States of America; (ii) the People’s Republic of China; (iii) South Korea; (iv) North Korea; (v) Libya; (vi) Syria; (vii) Lebanon; (viii) Iran; (ix) Pakistan; (x) Canada; (xi) Bangladesh; (xii) Bolivia, (xiii) Ecuador, (xiv) Kyrgyzstan; (xv) Morocco, (xvi) Nepal (xvii) Israel (only for the purposes of the Public Token Sale, or (xviii) any other jurisdic-

tion which prohibits or requires any supervision oversight licensing regulatory compliance legal compliance and/or prior approval from any regulatory (or similar) authority or body or from any monetary or securities body or authority for:

(a) The possession, dissemination or communication of the Available Information; and/or

(b) The participation in the Token Sale and/or the purchase of Tokens and/or the offer for sale of the Tokens or any similar activity or product. The term “Restricted Persons” refers to any firm, company, partnership, trust, corporation, entity, government, state or agency of a state or any other incorporated or unincorporated body or association, association or partnership (whether or not having separate legal personality) that is established and/or lawfully existing under the laws of a Restricted Jurisdiction (including in the case of United States of America, under the federal laws of the United States of America or under the laws of any of its States). The Tokens are not intended to constitute, and shall not constitute, equities or securities (of any nature whatsoever) in any jurisdiction. The White Paper does not constitute a prospectus or offer document of any sort and the Available Information is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. The Foundation does not provide any opinion or any advice to purchase, sell, or otherwise transact with Tokens and the presentation, publication or communication of all or any part of the Available Information shall not form the basis of, or be relied upon in connection with, any contract or investment decision.

NO ADVICE

No part of the Available Information should be considered to be business, legal, and financial or tax advice regarding the Foundation, the Tokens, the Token Sale or any of the matters to which all or any part of the Available Information relates. You should consult your own legal, financial, tax or other professional advisor regarding the Available Information. You should be aware that you may be required to bear the financial risk of any purchase of Tokens for an indefinite period of time.

LIMITATION OF LIABILITY

In no event shall the Foundation or any current or former employees, officers, directors, partners, trustees, representative, agents, advisors, contractors, or volunteers of the Foundation (hereinafter the “Foundation Representatives”) be responsible or accountable or liable in any way whatsoever to any purchaser of Tokens for any loss of profits or otherwise or for any lost savings or for any incidental direct indirect special or consequential damages in each case arising out of or from or in connection with:

(i) Any failure by the Foundation or any of its affiliated companies to deliver or realize all or any part of the project or the platform or the membership network or the Token features described in or envisaged by the Available Information;

(ii) Your use or inability to use at any time the services or the products or the platform or the membership network or Tokens offered by the Foundation;

(iii) The breach of any of these Terms by the Foundation or by the Foundation Representatives or by you or by any third party;

(iv) Any security risk or security breach or security threat or security attack or any theft or loss of data including but not limited to hacker attacks, losses of password, losses of private keys, or anything similar;

(v) Mistakes or errors in code, text, or images involved in the Token Sale or in any of the

Available Information; or

(vi) Any information contained in or omitted from the Available Information;

(vii) Any expectation promise representation or warranty arising (or purportedly arising) from the available Information;

(viii) The volatility in pricing of Tokens in any countries and/or on any exchange or market (regulated, unregulated, primary, secondary or otherwise);

(ix) The purchase, use, sale, resale, redemption or otherwise of the Tokens; or

(x) Your failure to properly secure any private key to a wallet containing Tokens, (Collectively, the “Excluded Liability Matters”). The Available Information (including the Website and the White Paper) and the Tokens are provided on an “as is” basis and without any representations or warranties of any kind, either express or implied. You assume all responsibility and risk with respect to your use of the Available Information and purchasing of any amount of Tokens and their use. If applicable law does not allow all or any part of the above limitation of liability to apply to you, the limitations will apply to you only to the maximum extent permitted by applicable law. To the maximum extent permitted by applicable law, you hereby irrevocably and unconditionally waive: (i) all and any claims (whether actual or contingent and whether as an employee, office holder, trustee, agent, principal or in any other capacity whatsoever or howsoever arising) including, without limitation, claims for or relating to the Excluded Liability Matters, any payment or repayment of monies, indemnity or otherwise that you may have against the Foundation or against any of the Foundation Representatives; and (ii) release and discharge the Foundation and all of the Foundation Representatives from any and all liability (of whatsoever nature or howsoever arising) it or they may have to you. If for any reason you hereafter bring or commence any action or legal proceeding in respect of any claim purported to be released and discharged pursuant to this paragraph or these Terms, or otherwise attempt to pursue any such claim against the Foundation or any Foundation Representative then you hereby irrevocably and unconditionally undertake to indemnify, and keep indemnified the Foundation and all Foundation Representatives fully on demand from and against:

(a) All liabilities or losses suffered by the Foundation or any Foundation Representative; and

(b) All reasonable costs, charges and reasonable expenses (including without limitation reasonable legal costs and expenses) reasonably and properly incurred by the Foundation or any Foundation Representative, in each case by reason of or in connection with the bringing or commencement of such action or pursuit of such claim by you. If any provision or part-provision of this “Legal Considerations, Risks and Disclaimer” section is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this “Legal Considerations, Disclaimer & Involved Risks” section shall not affect the validity and enforceability of the rest of this “ Legal Considerations, Disclaimer & Involved Risks” section.

NO REPRESENTATION & WARRANTIES

Not with standing any other provision of these Terms or any statement made expressly or impliedly in the Available Information, the Foundation does not make or purport to make, and hereby disclaims, any representation warranty undertaking or covenant in any form whatsoever to any entity or person, including any representation warranty undertaking or covenant in relation to the truth, accuracy and completeness of any of the information set out in the Available Information.

REPRESENTATION & WARRANTIES BY YOU

By howsoever accessing and/or accepting possession or communication of all or any part of the Available Information, you represent and warrant (and shall be deemed to represent and warrant) to the Foundation on the date of such access or on the latest date on which you retain possession of all or any part of the Available Information as follows:

- (a) You are over 18 (eighteen) years of age;
- (b) You agree and acknowledge that the Tokens do not constitute shares or equities or securities or financial instruments or investments in any form in any jurisdiction;
- (c) You agree and acknowledge that the Available Information (including the White Paper and the Website) does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of the Available Information;
- (d) You agree and acknowledge that no regulatory authority has examined or approved of the Available Information, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of all or any part of the Available Information to you does not imply that the applicable laws, regulatory requirements or rules have been complied with;
- (e) You agree and acknowledge that the Available Information, the undertaking and/or the completion of the Token Sale, or future trading of the Tokens on any exchange or market (regulated, unregulated, primary, secondary or otherwise), shall not be construed, interpreted or deemed by you as an indication of the merits of the Foundation, the Tokens, the Token Sale or the Available Information;
- (f) The distribution or dissemination of the Available Information any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to the Foundation;
- (g) You agree and acknowledge that in the case where you wish to purchase any Tokens, the Tokens are not to be construed, interpreted, classified or treated as:
 - (i) Any kind of currency or commodity;
 - (ii) Debentures, stocks or shares issued by any person or entity (whether the Company or otherwise);
 - (iii) Rights, options or derivatives in respect of such debentures, stocks or shares;
 - (iv) Rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss;
 - (v) Units in a collective investment scheme;
 - (vi) Units in a business trust;
 - (vii) Derivatives of units in a business trust;
 - (viii) Any other security or class of securities; or
 - (ix) Any type of investment (as such term is defined by the Financial Services Investments and Fiduciary Services)
- (h) You are fully aware of and understand that you are not eligible to purchase any Tokens or access the Available Information if you are a citizen, national, resident (tax or otherwise) and/or green card holder of a Restricted Jurisdiction or if you are a Restricted Person;

(i) You have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology;

(j) You are fully aware and understand that in the case where you wish to purchase any Tokens, there are risks associated with: (A) the Foundation and its business and operations; (B) the Tokens; (C) the Token Sale; and (D) relying or acting on all or any part of the Available Information;

(k) You agree and acknowledge that the Foundation is not liable for any direct indirect special incidental consequential or other losses of any kind in tort contract or otherwise (including but not limited to loss of revenue income or profits or loss of use or data or loss of reputation or loss of any economic or other opportunity of whatsoever nature or howsoever arising) arising out of or in connection with any acceptance of or reliance on the Available Information or any part thereof by you; and (l) all of the above representations and warranties are true, complete, accurate and not misleading from the time of your last access to and/or possession of (as the case may be) the Available Information.

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in the Available Information, statements made in any press releases or in any place accessible by the public and oral statements that may be made by the Foundation or the Foundation Representatives (as the case may be), that are not statements of historical fact, constitute “forward looking statements”. Some of these statements can be identified by forward-looking terms such as “aim”, “target”, “anticipate”, “believe”, “could”, “estimate”, “expect”, “if”, “intend”, “may”, “plan”, “possible”, “probable”, “project”, “should”, “would”, “will” or other similar terms. However, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding the Foundation’s financial position, business strategies, plans and prospects and the future prospects of the industry which the Foundation is in are forward-looking statements. These forward-looking statements, including but not limited to statements as to the ’s revenue Foundation profitability and growth, expected revenue profitability and growth, prospects, future plans, other expected industry trends and other matters discussed in the Available Information regarding the Foundation are matters that are not historic facts, but only estimations and predictions. The Foundation makes no representation or warranty on having made any predictions or estimates or expectations on the basis of any formula, any mathematical or scientific modelling or forecast, or having made any due and proper enquiries or having undertaken any independent research or studies or otherwise. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of the Foundation to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, amongst others:

(a) Changes in legal political social economic and stock or cryptocurrency market conditions and the regulatory environment in the countries in which the Foundation conducts its Token Sale its business and/or its operations; (b) The risk that the Foundation may be unable or execute or implement its business strategies and future plans; (c) Changes in interest rates and exchange rates of fiat currencies and cryptocurrencies; (d) Changes in the anticipated growth strategies and expected internal growth of the Foundation; (e) Changes in the availability and fees payable to the Foundation in connection with its business and operations; (f) Changes in the availability and salaries of employees who are required by

the Foundation to operate its business and operations; (g) Changes in preferences of customers of the Foundation; (h) Changes in competitive conditions under which the Foundation operates, and the ability of the Foundation to compete under such conditions; (i) Changes in the future capital needs of the Foundation and the availability of financing and capital to fund such needs; (j) War or acts of international or domestic terrorism; (k) Occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of the Foundation; (l) Other factors beyond the control of the Foundation ; and (m) Any risk and uncertainties associated with the Company and its business and operations, the Tokens, the Token Sale and reliance on all or any part of the Available Information. All forward-looking statements made by or attributable to the Foundation or Foundation Representatives are expressly qualified in their entirety by such factors. Given that risks and uncertainties that may cause the actual future results, performance or achievements of the Foundation to be materially different from that expected, expressed or implied by the forward-looking statements in the Available Information, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the later of the date of publication of the White Paper and the latest date that the Website has been updated. Neither the Foundation nor the Foundation Representatives nor any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of the Foundation will be as discussed in those forward-looking statements. The actual results, performance or achievements of the Foundation may differ materially from those anticipated in these forward-looking statements. Nothing contained in the Available Information is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of the Foundation. Further, the Foundation disclaims any responsibility to update any of those forward-looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.

RISK FACTORS

You should carefully consider and evaluate each of the following risk factors and all other information contained in these Terms before deciding to participate in the Token Sale. To the best of the Foundation's knowledge and belief, all risk factors which are material to you in making an informed judgment to participate in the Token Sale have been set out below. If any of the following considerations, uncertainties or material risks develops into actual events, the business, financial position and/or results of operations of the Foundation and the maintenance and level of usage of the Tokens could be materially and adversely affected. In such cases, the trading price of Tokens (in the case where they are listed on an exchange or market (regulated, unregulated, primary, secondary or otherwise) could decline due to any of these considerations, uncertainties or material risks, and you may lose all or part of your Tokens or the economic value thereof.

RISKS RELATING TO PARTICIPATION IN THE TOKEN SALE

There is no prior market for Tokens and the Token Sale may not result in an active or liquid market for the Tokens. Prior to the Token Sale, there has been no public market for the Tokens. In the event that the Foundation ever decides to seek the approval for availability of the Tokens for trading on a cryptocurrency exchange or market, there is no assurance that such approval will be obtained. Furthermore, even if such approval is granted by a cryptocurrency exchange, there is no assurance that an active or liquid trading market for the Tokens will develop, or if developed, will be sustained after the Tokens have been made available for trading on such market. There is also no assurance that the market price of the Tokens will not decline below the original or issue purchase price (the "Purchase Price"). The Pur-

chase Price may not be indicative of the market price of the Tokens after they have been made available for trading on a market. A Token is not a currency issued by any central bank or national, supra-national or quasi-national organization, nor is it backed by any hard assets or other credit nor is it a commodity in the traditional sense of that word. The Foundation is not responsible for, nor does it pursue, the circulation and trading of Tokens on any market. Trading of Tokens will merely depend on the consensus on its value between the relevant market participants. No one is obliged to purchase any Token from any holder of the Token, including the purchasers, nor does anyone guarantee the liquidity or market price of Tokens to any extent at any time. Furthermore, Tokens may not be resold to purchasers who are citizens, nationals, residents (tax or otherwise) and/or green card holders of Restricted Jurisdictions or to Restricted Persons or to purchasers in any other jurisdiction where the purchase of Tokens may be in violation of applicable laws. Accordingly, the Foundation cannot ensure that there will be any demand or market for Tokens, or that the Purchase Price is indicative of the market price of Tokens after they have been made available for trading on any cryptocurrency exchange or market. Future sales or issuance of the Tokens could materially and adversely affect the market price of Tokens. Any future sale or issuance of the Tokens would increase the supply of Tokens in the market and this may result in a downward price pressure on the Token. The sale or distribution of a significant number of Tokens outside of the Token Sale (including but not limited to the sales of Tokens undertaken after the completion of the initial crowd sale, issuance of Tokens to persons other than purchasers for purposes of community initiatives, business development, academic research, education and market expansion and issuance of Tokens as a reward to users of the Foundation's business platform that is yet to be developed or otherwise), or the perception that such further sales or issuance may occur, could adversely affect the trading price of the Tokens. Negative publicity may materially and adversely affect the price of the Tokens. Negative publicity involving the Foundation, the Foundation's that is yet to be developed, the Tokens or any of the key personnel of the Foundation and/or regulation of distributed ledger technologies, cryptocurrencies and/or crowd sales of tokens in any jurisdiction, may materially and adversely affect the market perception or market price of the Tokens, whether or not it is justified. There is no assurance of any success of the Foundation's Token Sale or business platform that is yet to be fully developed as envisaged by the Available Information. The value of, and demand for, the Tokens hinges heavily on the performance of the Foundation's Token Sale and business platform that is yet to be developed and the continuous active engagement of its users and success of its contemplated business lines. There is no assurance that the Foundation's Token Sale will be successful or that its business platform that is yet to be developed will gain or continue to gain traction. While the Foundation has made every effort to provide a realistic estimate, there is also no assurance that the cryptocurrencies raised in the Token Sale will be sufficient for the development of the Foundation's business platform. For the foregoing or any other reason, the development of the Foundation's business platform and launch of the anticipated Token functionality may not be completed and there is no assurance that it will be launched at all. As such, distributed Tokens may hold little or no worth or value and this would impact any trading price and/or use of the Tokens. The trading price of the Tokens may fluctuate following the Token Sale. The prices of cryptographic tokens in general tend to be relatively volatile, and can fluctuate significantly over short periods of time. The demand for, and the corresponding market price of, the Tokens may fluctuate significantly and rapidly in response to, among others, the following factors, some of which are beyond the control of the Foundation:

(a) New technical innovations;

- (b) Analysts' speculations, recommendations, perceptions or estimates of the Token's market price or the Foundation's financial and business performance;
- (c) Changes in market valuations and token prices of entities with businesses similar to that of the Foundation that may be listed on the same cryptocurrency exchanges or markets as the Tokens;
- (d) Announcements by the Foundation of significant events, for example partnerships, sponsorships or new product developments;
- (e) Fluctuations in market prices and trading volume of cryptocurrencies on cryptocurrency exchanges or markets;
- (f) Additions or departures of key personnel of the Company;
- (g) Success or failure of the Foundation's management in implementing business and growth strategies; and/or
- (h) Changes in conditions affecting the blockchain or financial technology industry, the general economic conditions or market sentiments, or other events or factors.

The funds raised in the Token Sale are exposed to risks of theft.

The Foundation will make every effort to ensure that the funds received from the Token Sale will be securely held in a multi signature wallet, which is a multi-signature address with access thereto by private keys held by reputable and trusted parties. Further, the Foundation may make every effort to ensure that the funds received by it from Token Sale will be securely held through the implementation of security measures. Notwithstanding such security measures, there is no assurance that there will be no theft of the cryptocurrencies as a result of hacks, sophisticated cyber-attacks, and distributed denials of service or errors, vulnerabilities or defects on the Token Sale website, in the smart contract(s) on which the multi signature wallet and the Token Sale relies, on the Ethereum blockchain or any other blockchain, or otherwise. Such events may include, for example, flaws in programming or source code leading to exploitation or abuse thereof. In such event, even if the Token Sale is completed, the Foundation may not be able to receive the cryptocurrencies raised and the Foundation may not be able to use such funds for the development of the Foundation's business platform. In such case, the launch of the Foundation's business platform might be temporarily or permanently curtailed. As such, distributed Tokens may hold little worth or value and this would impact their trading price.

RISKS RELATING TO THE FOUNDATION

The Foundation's business platform is yet to be developed. Any events or circumstances which adversely affect the Foundation or any of its successor or affiliated operating entities may have a corresponding adverse effect on the Foundation's business platform that is yet to be developed, including but not limited to the development, structuring and launch of the Foundation's business platform. Such adverse effects would correspondingly have an impact on the utility, liquidity, and the trading price of the Tokens. The Foundation may be materially and adversely affected if it fails to effectively manage its operations as its business develops and evolves which would have a direct impact on its ability to develop, maintain or operate the Foundation's business platform and/or develop structure and/or license any Token functionality. The financial technology and cryptocurrency industries in which the Foundation competes have grown rapidly over the past few years and continue to evolve in response to new technological advances, changing business models, shifting regulations and other factors. As a result of this constantly changing environment, the Foundation may face operational difficulties in adjusting to the

changes, and the sustainability of the Foundation will depend on its ability to manage its operations, ensure that it hires qualified and competent employees, and provides proper training for its personnel. As its business evolves, the Foundation must also expand and adapt its operational infrastructure. The Foundation's business will in part rely on its blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology. All of these systems, tools, and skill sets represent complex, costly, and rapidly changing technical infrastructure. In order to demonstrate continued ability to effectively manage technical support infrastructure for the Foundation's business platform that is yet to be developed and the future functionality of the Tokens, the Foundation will need to continue to upgrade and improve its data systems and other operational systems, procedures, and controls. These upgrades and improvements will require a dedication of resources and are likely to be complex and increasingly rely on hosted computer services from third parties that the Foundation does not or will not control. If the Foundation is unable to adapt its systems and organization in a timely, efficient, and cost-effective manner to accommodate changing circumstances, its business, financial condition and/or results of operations may be adversely affected. If the third parties whom the Foundation relies on are subject to a security breach or otherwise suffer disruptions that impact the services the Foundation uses, the integrity and availability of its internal information could be compromised, which may consequently cause the loss of confidential or proprietary information and/or economic loss. The loss of financial, labor or other resources, and any other adverse effect on the Foundation's business, financial condition and/or operations, would have a direct adverse effect on the Foundation's ability to develop maintain or operate the Foundation's business platform and/or to develop, structure and/or license the anticipated Token functionality. Any adverse effects affecting the Foundation business or technology are likely to also adversely impact the utility, liquidity, and trading price of the Tokens. The Foundation may experience system failures, unplanned interruptions in its network or services, hardware or software defects, security breaches or other causes that could adversely affect the Foundation's infrastructure network, and/or the Foundation's business platform that is yet to be developed. The Foundation is not able to anticipate when there would be occurrences of hacks, cyber-attacks, distributed denials of service or errors, vulnerabilities or defects in: the Foundation's business platform that is yet to be developed, in the smart contracts on which the Company or the Foundation's business platform relies, or on the Ethereum or any other blockchain. Such events may include, for example, flaws in programming or source code leading to exploitation or abuse thereof. The Foundation may not be able to detect such hacks, cyber-attacks, distributed denials of service errors vulnerabilities or defects in a timely manner, and may not have sufficient resources to efficiently cope with multiple service incidents happening simultaneously or in rapid succession. The Foundation's network or services, which would include the Foundation's business platform that is yet to be developed and, if successfully structured, developed, licensed and launched, the Token functionality, could be disrupted by numerous events, including natural disasters, equipment breakdown, network connectivity downtime, power losses, or even intentional disruptions of its services, such as disruptions caused by software viruses or attacks by unauthorized users, some of which are beyond the Foundation's control. There can be no assurance that cyber-attacks, such as distributed denials of service, will not be attempted in the future or that the Foundation's security measures will be effective. The Foundation may be prone to attacks on its infrastructure intended to steal information about its technology, financial data or user information or take other actions that would be damaging to the Foundation and/or holders of the Tokens. Any significant breach of the Foundation's security measures or other disruptions resulting in a compromise of the usability, stability, and security of the Foundation's business platform that is yet

to be developed may adversely affect the utility, liquidity and/or trading price of the Tokens. The Foundation may in the future be dependent in part on the location and data center facilities of third parties. The Foundation's future infrastructure network may be established in whole or in part through servers which it owns and/or houses at the location facilities of third parties, and/or servers that it rents at data center facilities of third parties. If the Foundation is unable to renew its data facility leases on commercially reasonable terms or at all, the Foundation may be required to transfer its servers to a new data center facility, and may incur significant costs and possible service interruption in connection with the relocation. These facilities are also vulnerable to damage or interruption from, among others, natural disasters, arson, terrorist attacks, power losses, and telecommunication failures. Additionally, the third-party providers of such facilities may suffer a breach of security as a result of third-party action, employee error, malfeasance or otherwise and a third party may obtain unauthorized access to the data in such servers. The Foundation and the providers of such facilities may be unable to anticipate these techniques or to implement adequate preventive measures.

General global market and economic conditions may have an adverse impact on the Foundation's operating performance, results of operations and/or cash flows. The Foundation could continue to be affected by general global economic and market conditions. Challenging economic conditions worldwide have from time to time, contributed, and may continue to contribute, to slowdowns in the information technology industry at large. Weakness in the economy could have a negative effect on the Company's business, operations and financial condition, including decreases in revenue and operating cash flows, and inability to attract future equity and/or debt financing on commercially reasonable terms. Additionally, in a down-cycle economic environment, the Foundation may experience the negative effects of a slowdown in trading and usage of the Foundation's business platform that is yet to be developed and may delay or cancel the development, structuring, licensing and/or launch of the anticipated Token functionality. Suppliers on which the Foundation relies for servers, bandwidth, location and other services could also be negatively impacted by economic conditions that, in turn, could have a negative impact on the Foundation's operations or expenses. There can be no assurance, therefore, that current economic conditions or worsening economic conditions or a prolonged or recurring recession will not have a significant, adverse impact on the Foundation's business, financial condition and results of operations, and hence, the Foundation's business platform that is yet to be developed and/or the ability to develop, structure, license and/or launch any Token functionality. Any such circumstances would then correspondingly negatively impact the utility, liquidity, and/or trading price of the Tokens. The Foundation or the Tokens may be affected by newly implemented regulations. Distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities are generally unregulated worldwide, but numerous regulatory authorities across jurisdictions have been outspoken about considering the implementation of regulatory regimes which govern distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities. The Foundation or the Tokens may be affected by newly implemented regulations relating to distributed ledger technologies, businesses and activities as well as cryptocurrencies and cryptocurrency-related businesses and activities, including having to take measures to comply with such regulations, or having to deal with queries, notices, requests or enforcement actions by regulatory authorities, which may come at a substantial cost and may also require substantial modifications to the Foundation's business platform that is yet to be developed and/or the anticipated Token functionality. This may impact the appeal or practicality or functionality of the Foundation's business platform that is yet to be developed and/or the anticipated Token functionality for users and result in decreased usage

of and demand for the Foundation's business platform and the Tokens. Further, should the costs (financial or otherwise) of complying with such newly implemented regulations exceed a certain threshold, maintaining the Foundation's business platform that is yet to be developed and/or developing, structuring, licensing and/or launching the Token functionality may no longer be commercially viable, and the Company may opt to discontinue the Foundation's business platform that is yet to be developed and/or the anticipated Token functionality, and/or the Tokens. Further, it is difficult to predict how or whether governments or regulatory authorities may implement any changes to laws and regulations affecting distributed ledger technology and its applications, including the Foundation's business platform that is yet to be developed and/or the anticipated Token functionality, and/or the Tokens. The Foundation may also have to cease operations in a jurisdiction that makes it illegal to operate in such jurisdiction, or make it commercially unviable or undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction. In scenarios such as the foregoing, the utility, liquidity, and/or trading price of Tokens will be adversely affected and/or Tokens may cease to be traded.

There may be unanticipated risks arising from the Tokens. Cryptographic tokens such as the Tokens are a relatively new and dynamic technology. In addition to the risks included in the above discussion of risk factors, there are other risks associated with your purchase, holding, and use of the Tokens, including those that the Foundation cannot anticipate. Such risks may further appear as unanticipated variations or combinations of the risks discussed above.

PRIVACY POLICY

By purchasing Tokens, you agree to your personal data, (i.e., your e-mail address, name, address and other details personal to you) being processed by the Foundation for its business purposes or the purposes of building, promoting, and communicating (about) the Foundation's business platform that is yet to be developed and the Tokens. The Foundation agrees to keep your email address and other personal data private and not share it with the public (e.g., by including it on any external lists or selling to any third parties).

DISCLAIMER

The presentation of the Available Information is solely for informational purposes. Anyone interested in purchasing Tokens and participating in the Token Sale should consider the various risks prior to making any kind of decision in respect of the Token Sale. The Available Information does not comprise any advice by the Foundation or by the Foundation Representatives, or any recommendation to any recipient of the Available Information, by the virtue of any participation in the Token Sale or otherwise. The Available Information does not necessarily identify, or claim to identify, all the risk factors connected with the Foundation, the Foundation's business platform that is yet to be developed, the Tokens, the Token Sale, any future Token functionality or the Available Information. All the participants must make their own independent evaluation, after making such investigations as they consider essential, of the merits of participating in the Token Sale and after taking their own independent professional advice. Any participant in the Token Sale should check with and rely upon their own investment, accounting, legal and tax representatives and consultants in respect of such matters concerning the Foundation, the Foundation's business platform that is yet to be developed, the Tokens, the Token Sale, any future Token functionality and the Available Information and to assess separately the financial risks, consequences and appropriateness of the purchase of Tokens, or if in any doubt about the facts set out in the Available Information. A purchase of Tokens comprises considerable risk and might involve extraordinary risks

that may lead to a loss of all or a significant portion of monies or monetary value utilized to acquire Tokens. Participants in the Token Sale are urged to completely understand, be aware of and accept the characteristics of the Foundation, the Foundation's business platform that is yet to be developed, the Tokens, the Token Sale, any future Token functionality and the Available Information. If you are not prepared to accept any or all of these Terms or the risks set out in these Terms then YOU ARE URGED NOT TO PARTICIPATE IN THE TOKEN SALE. No guarantee or assurance is given by the Foundation or by the Foundation Representatives that the Foundation's proposals, objectives and/or outcomes set out in the Available Information will be achieved in whole or in part. You are urged to consider whether participation in the Token Sale is suitable for you having regard to your personal and financial circumstances and your financial resources.

RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION OF THE AVAILABLE INFORMATION

The distribution or dissemination howsoever of all or any part of the Available Information may be prohibited or restricted by the laws, regulatory requirements and rules of certain jurisdictions. In the case where any such restriction applies, you are responsible for informing yourself in respect of the same and for observing any such restrictions which are applicable to your possession and/or dissemination of all or any part of the Available Information at your own expense and without liability to the Foundation. Persons to whom a copy of all or any part of the Available Information has been distributed or disseminated, provided access to or who otherwise have all or any part of the Available Information in their possession shall not circulate it to any other persons, reproduce or otherwise distribute any information contained herein for any purpose whatsoever nor permit or cause the same to occur.

NO OFFER OF SECURITIES OR REGISTRATION

The White Paper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. No person is bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of all or any part of the Available Information. Any agreement in relation to any sale and purchase of Tokens is to be governed by the terms and conditions of such agreement and no other document. In the event of any inconsistencies between the terms and conditions of that agreement and the Available Information, those terms and conditions shall prevail. You are not eligible to purchase any Tokens in the Token Sale if you are a citizen, resident (tax or otherwise) or green card holder of a Restricted Jurisdiction or you are a Restricted Person. No regulatory authority has examined or approved of any of the Available Information. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of the Available Information does not imply that the applicable laws, regulatory requirements or rules have been complied with.
